CHAPTER – 1
INTRODUCTION

1.1 About National Testing Agency (NTA)

The Ministry of Education (MoE), Government of India (GoI) has established the National Testing Agency (NTA) as an independent, autonomous, and self-sustained premier testing organization under the Societies Registration Act (1860) for conducting efficient, transparent, and international standardized tests to assess the competency of candidates for admission to premier higher education institutions with a mission to improve equity and quality in education by developing and administering research-based valid, reliable, efficient, transparent, fair and international level assessments.

NTA strongly believes in the quality, efficiency, effectiveness, equity, and security of assessments. To practice these values, NTA continually engages with its stakeholders, including, viz. students, parents, teachers, experts, and partner institutions.

1.2 The objectives of NTA, *inter alia*, include:

i. To conduct efficient, transparent, and international standardized tests to assess the competency of candidates for admission.
ii. To undertake research on educational, professional, and testing systems to identify gaps in the knowledge systems and take steps to bridge them.
iii. To produce and disseminate information and research on education and professional development standards.

The National Testing Agency (NTA) has been entrusted by the **Ministry of Education and University Grants Commission (UGC), with the task of conducting CUET (PG)-2026 for Central Universities and other Participating Universities/ Institutions/Organizations.**

1.3 About Common University Entrance Test (CUET (PG) - 2026)

The Common University Entrance Test (CUET) was introduced in 2022 for admission into PG programmes in Central and participating Universities. The Common University Entrance Test (CUET) provides a common platform and equal opportunities to candidates across the country, especially those from the North-East and from rural and other remote areas, and helps to establish a better connection with universities. A single Examination enables the Candidates to cover a wide outreach and be part of the admissions process to various Central Universities and other Participating Universities.

The CUET (PG) - 2026 scores will be used for admissions to the PG programmes of participating universities in the next academic session, i.e., 2026-27.

1.4 Role of NTA

The Role of NTA is confined to the registration of candidates, the conduct of the test, hosting answer keys, inviting challenges, finalizing Answer Keys, preparing and declaring results, and hosting scorecards. A merit list will be prepared by participating Universities/Organizations.

4.2.2 Office Memorandum dated 29 August 2018:

Ministry of Social Justice & Empowerment, Govt. of India, Office Memorandum No. F. No. 34-02/2015-DD-III dated 29 August 2018 for conducting written examination for persons with specified disabilities covered under the definition of Section 2(r) of the RPwD Act, 2016. The relevant paragraphs of the above Office Memorandum for consideration are as under: -

Para IV. The facility of Scribe/Reader/Lab Assistant should be allowed to any person with benchmark disability as defined under section 2(r) of the RPwD Act, 2016, and has limitation in writing including that of speed if so desired by him/her.

In the case of persons with benchmark disabilities in the category of blindness, locomotor disability (both arm affected-BA), and cerebral palsy, the facility of scribe/reader/lab assistant shall be given, if so desired by the person.

In the case of another category of persons with benchmark disabilities, the provision of a scribe/reader/lab assistant can be allowed on the production of a certificate to the effect that the person concerned has physical limitations to write, and a scribe is essential to write the examination

on his behalf, from the Chief Medical Officer/Civil Surgeon/Medical Superintendent of a Government health care institution as per proforma at **Annexure - I**.

In case the candidate is allowed to bring his own scribe, the qualification of the scribe should be one step below the qualification of the candidate taking the examination. The person opting for their own scribe should submit details of their own scribe as per proforma in **Appendix II**.

4.2.3 Office Memorandum dated 10 August 2022:

Ministry of Social Justice & Empowerment, Govt. of India, Office Memorandum No F. No. 29-6/2019-DD-III dated 10 August 2022 for conducting written examination for persons with specified disabilities covered under the definition of Section 2(s) of the RPwD Act, 2016 but not covered under the definition of Section 2(r) of the said Act, i.e. person having less than 40% disability and having difficulty in writing. The relevant paragraphs of the above Office Memorandum for consideration are as under: -

Para 3(b). The facility of scribe and/or compensatory time shall be granted solely to those having difficulty in writing subject to the production of a certificate to the effect that the person concerned has limitation to write and that scribe is essential to write the examination on his/her behalf from the competent medical authority of a Government healthcare institution as per proforma at **Annexure III**.

Para 3 (c). The medical authority for the purpose of certification as mentioned above should be a multi-member authority comprising the following: -

i. Chief Medical Officer/Civil Surgeon /Chief District Medical Officer, Chairperson
ii. Orthopedic/PMR specialist
iii. Neurologist, if available*
iv. Clinical Psychologist/Rehabilitation Psychologist/ Psychiatrist/Special Educator
v. Occupational therapist, if available*
vi. Any other expert, based on the condition of the candidate, may be nominated by the Chairperson.

(* the Chief Medical Officer/Civil Surgeon/Chief District Medical Officer may make full efforts for inclusion of neurologists, occupational therapists from the nearest District or the Medical College/Institute if the same is not available in the district)"

The candidate should fill in the details of the scribe as per the undertaking proforma in **Annexure II.**

4.2.4 Scribe and Compensatory Time

1. The candidate should have the discretion of opting for his own scribe/reader/lab assistant or request the Examination Body for the same. The examining body may also identify the scribe/reader/lab assistant to make panels at the District / Division / State level as per the requirements of the examination. In such instances, candidates should be allowed to meet the scribe two days before the examination so that the candidate get a chance to check and verify whether the scribe is suitable or not.
2. Compensatory time given to the candidate should not be less than 20 minutes per hour of examination for persons who are allowed the use of ascribe/reader/lab assistant. All candidates with benchmark disabilities who are eligible to avail of the scribe facility, as per the guidelines in Para IV of Section 4.2.2. The above may be allowed additional time of a minimum of one hour for examination of 3 hours duration, whether they use the facility of a scribe or not. If the duration of the examination is less than an hour, additional time should be allowed on a pro-rata basis. Additional time should not be less than 5 minutes and should be in multiples of 5.

Note – Both the guidelines i.e., dated 29 August 2018 (for PwBDs) and dated 10 August 2022 (for PwDs), have other important aspects such as allowing the use of assistive devices, proper seating arrangement, accessibility of examination centres, etc., which will be followed.

The scribe will help the Candidate in reading the questions and/or key in the answers as per the directions of the Candidate. A scribe will NEITHER explain the questions NOR suggest any solution to the Candidate.

It is to be noted that the Scribe will be provided by the National Testing Agency (NTA) if requested by the Candidate.

If it is found at any stage of examination process that a candidate has availed the services of a scribe and/or availed the compensatory time but does not possess the extent of disability that warrants the use of a scribe and/or grant of compensatory time, the candidate will be excluded from the process of evaluation and action may be taken. In case such a candidate has already been admitted to any Institution/University appropriate measures will be taken as per the guideline/ policy of Institution/University.

A Physical Disability certificate (Unique Disability Identification (UDID)) issued by a notified medical authority must be uploaded to the Online Application Form of CUET (PG) – 2026.

Note 1: The NTA will not entertain request for any change in the category or sub-category (PwD/PwBD status) after the submission of the Online Application Form, and in any case, no change will be entertained by the NTA after the declaration of the NTA Score for CUET (PG) - 2026. Therefore, the candidates are advised to fill in the category/sub-category column very carefully.

Note 2: The extent of "specified disability" in a person shall be assessed in accordance with the "Guidelines for the purpose of assessing the extent of specified disability in a person included under the Rights of Persons with Disabilities Act, 2016".

Note 3: Candidates must note that the benefit of reservation will be provided to them subject to the verification of their documents at the time of admission in their desired university/ies. If it is discovered at any stage that a candidate has used a false/fake/incorrect document or has furnished false, incorrect, or incomplete information, to avail the benefit of reservation, then such a candidate shall be excluded from all admission processes of the university where admission sought. In each such a candidate has already been given admission the admission shall stand cancelled by university.

***

CHAPTER – 5
CHOICE OF CITIES

The cities where the CUET (PG) – 2026 will be conducted are given in **Appendix III**. While applying, candidates can select up to a maximum of **TWO** cities of their choice within the State provided in their Present and Permanent Address. All efforts will be made to allot the city of Examination to the candidates in order of choice opted by them in their online Application Form. However, due to administrative/logistic reasons, a different city can be allotted.

In case, there are very few or no candidates registered for from a City, the NTA reserves the right to merge one, two or more cities.

The decision of the NTA regarding the allotment of the City/Centre shall be final. No further correspondence or request shall be entertained in such a case.

In case of foreign candidates as well, the Choice of Cities will be based on their Present and Permanent address from Appendix -III for the exam Centre in order of their priority.

For convenience, the candidates may select their own city or neighboring cities in their State of Residence or permanent address only. NTA will not be responsible for any inconvenience caused by the incorrect selection of cities by candidates.

Though every effort will be made to allot a Centre in one of the cities selected by the candidate, the NTA reserves the right to allot a Centre in a city other than the candidate's choice.

Computer Based Test (CBT) Guidelines

A CBT requires candidates to sit in front of a computer terminal (node) allocated to them against their Roll number and e-Admit card in a designated Test Centre. After logging the candidate will get detailed instructions for the examinations. At the designated time of the start of the examination, the candidates will be able to proceed and see the questions on the computer screen using the computer mouse.

Procedure for Appearing in Computer Based Test (CBT)

(a) A computer terminal (node) indicating the Roll Number will be allocated to each candidate. Candidates should find and sit on their allocated computers only. Any candidate found to have changed their room/hall or computer on their own, rather than the one allotted would be liable for cancellation of candidature and no plea in this regard would be entertained.

(b) The computer terminal allotted to the candidate will display a Welcome login screen, the Candidate's photograph, and the subject opted by the candidate. For login, the candidate will need to enter their login ID **and password**.

(c) After login, the candidate shall be able to see the detailed instructions for the examination. Candidates are advised to go through the instructions carefully regarding the type of questions and the Marking Scheme. At the designated time of the start of the examination, the candidates will be able to proceed and see the questions on the computer screen.
The keyboard attached to the computer, if any, will be disabled during the entire duration of the examination. Depending on the type of question, the answers to questions can either be entered by clicking on the virtual on-screen keyboard (numeric or otherwise) using the computer mouse or by clicking the chosen option(s) using the computer mouse.
Candidates will have the option to change/modify answers already entered at any time during the entire duration of the examination.
In case the computer/mouse allotted to any candidate malfunctions at any time during the test, the candidate will be immediately allotted to another computer system and the time lost due to this will be adjusted in the server so as to give the candidate the full allotted time.

(d) The on-screen computer clock counter of every candidate will be set at the server. The countdown timer located in the top right corner of the computer screen, will display the time remaining (in minutes) available for the candidate to complete the examination. When the timer reaches zero, the examination will end by itself. Candidate will not be required to end or submit the examination.

(e) The Question Palette displayed on the right side of the screen will show the status of each question using one of the following text/color codes/symbols.

1 You have not visited the question yet.
2 You have not answered the question.
3 You have answered the question.
4 You have NOT answered the question but have marked the question for review.
5 The question(s) "answered and marked for Review" will be considered for evaluation.

The question(s) "Answered and Marked for Review" status for a question indicates that the candidate would like to have a relook at that question again. A candidate has the option of answering a question and simultaneously placing it under "Marked for Review", these answers will be considered for evaluation. However, if a candidate has put "Marked for Review" for a question without answering it, the corresponding question 'Marked for Review' without an answer will not be considered for evaluation. It may be noted that a candidate can return to any "Marked for Review" question any time during the examination by clicking on the corresponding question number icon displayed on the Question Palette of the corresponding section.

(f) Candidate can click on an arrow/symbol which appears to the left of the question palette to collapse the question palette, thereby maximizing the question viewing window. To view the question palette again, the candidate can click on the arrow/symbol that appears on the right side of the question window.

(g) Candidate can click to navigate to the bottom and to navigate to the top of the question area, without scrolling. Using the computer mouse the candidate can scroll up and down the question viewing area to view the entire question.

(h) The full paper can be viewed by clicking the "Question Paper" icon on the top right corner of the screen.

(i) Blank Sheets for doing rough work/calculations shall be provided to the candidates. The Blank Sheets would have a Header page for the candidates to write down their Name and Roll Number. All calculations/writing work is to be done only in the Blank Sheets provided at the Centre in the Examination Room/Hall, and on completion of the test, candidates must hand over the rough sheets to the invigilator on duty in the Room/Hall.

(j) Navigating to a Question

To navigate between questions within a Paper, the candidate needs to do the following:

i. Click on the question number in the Question Palette at the right of the screen to go to that numbered question directly. Note that using this option does NOT save the answer to the currently displayed question.
ii. Click on "Save & Next" to save the answer to any question. Clicking on "Save & Next" will save the answer for the current question and the next question will be displayed on the candidate's computer screen.
iii. Click on "Mark for Review & Next" to mark a question for review (without answering it) and proceed to the next question.

(k) Answering a Question

1. **Procedure for answering a multiple-choice type of question:**
   a. To select the option, click on the button of one of the options.
   b. To deselect the chosen answer, click on the button of the chosen option again or click on the "Clear Response" button.
   c. To save the answer, the candidate MUST click on the "Save & Next" button.
   d. To mark the question for review (without answering it), click on the "Mark for Review & Next" button.

2. **Procedure for answering questions that require inputs from on-screen virtual keyboard (numeric or otherwise):**
   a. Candidate will have to use the on-screen virtual keyboard (that would be displayed just below the question statement of these types of questions) and the attached computer

mouse to enter their answer in the space provided for the answer.

b. The answer can be changed, if required, anytime during the test. To save the answer, the candidate MUST click on the "Save & Next "button.
c. To mark the question for review (without answering it), click on the "Mark for Review & Next" button.

3. **Navigating through sections:**
   a. Sections on the question paper are displayed on the top bar of the screen. Questions in a section can be viewed by clicking on the section name. The section in which the candidate is currently viewing will be highlighted.
   b. After clicking the "Save & Next" button on the last question for a section, the candidate will automatically be taken to the first question of the next section.
   c. Candidate can shuffle between sections and questions within sections any time during the examination as per their convenience, only during the time stipulated.
   d. Candidate can view the corresponding section summary as part of the legend that appears in every section above the question palette.

   The candidate will have the option to change previously saved answers to any question, at any time during the entire test duration. To change the answer to a question that has already been answered, first select the corresponding question from the Question Palette, then click on "Clear Response" to clear the previously entered answer and subsequently follow the procedure for answering that type of question.

4. **Rough Work and Return of Rough Sheets:**
   All calculations/writing work is to be done only in the Rough Sheet provided in the Examination Room/Hall at the Test Centre. Candidate must write their name and application number on the top of each Rough Sheet. On completion of the test, candidates must hand over the Rough Sheets to the Invigilator on duty in the Room/Hall.

National Testing Agency (NTA)
Procedure to be adopted for compilation of NTA scores in case of Multi Session Papers
(Normalization procedure based on Percentile Score)

NTA may conduct same examinations on multiple dates/shift/secession. The candidates will be given different sets of questions per dates/shift/secession, and it is quite possible that, in spite of all efforts to maintain equivalence among various question papers, the difficulty level of this question papers administered in different sessions may not be exactly the same. In order to overcome such a situation, **"Normalization procedure based on Percentile Score"** will be used for ensuring that candidates are neither benefitted nor disadvantaged due to the difficulty level of the examination. With the objective of ensuring that a candidate's true merit is identified, and that a level playing field is created in the above context, the Normalization Procedure, set out below shall be adopted for compiling the NTA scores for multi-session papers**.**

The process of Normalization is an established practice for comparing candidate scores across multi session papers and is similar to those being adopted in other large educational selection tests conducted in India. For normalization across sections, NTA shall use the percentile equivalence.

Percentile Scores: Percentile scores are scores based on the relative performance of all those who appear for the examination. Basically, the marks obtained are transformed into a scale ranging from 100 to 0 for each session of examinees.

The Percentile Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW (same or lower raw scores) **that particular Percentile in that examination. Therefore, the topper (highest score) of each session will get the same Percentile of 100 which is desirable. The marks obtained between the highest and lowest scores are also converted to appropriate Percentiles.**

The Percentile score will be the Normalized Score for the Examination (instead of the raw marks of the candidate) and shall be used for the preparation of the merit lists**.**

The Percentile Scores will be calculated up to 7 decimal places to avoid bunching effect and reduce ties.

The Percentile score of a Candidate is calculated as follows:

$$\frac{\text{100 X Number of candidates appeared in the 'Session' with raw score EQUAL TO OR LESS than the candidate.}}{\text{Total number of the candidates who appeared in the 'Session'}}$$

Note: The Percentile of the Total shall **NOT be** an aggregate or average of the Percentile of individual subjects. The percentile score is not the same as the percentage of marks obtained.

Example: Suppose a test was held in 4 sessions of examinees as per the details given below:

(Allocation of Days and shifts were done randomly)

(a) Distribution of candidates were as follows:

Session-1: Day-1 Shift-1, **Session-2:** Day-1 Shift-2, **Session-3:** Day-2 Shift-1 and **Session-4:** Day-2 Shift-2.

Session	Day/ Shift	No of Candidates			Marks	
		Absent	Appeared	Total	Highest	Lowest
Session-1	Day-1 Shift-1	3974	28012	31986	335	-39
Session-2	Day-1 Shift-2	6189	32541	38730	346	-38
Session-3	Day-2 Shift-1	6036	41326	47362	331	-49
Session-4	Day-2 Shift-2	9074	40603	49677	332	-44
Total (Session-1 to Session-4)		25273	142482	167755	346	-49

In this method of scoring the HIGHEST RAW SCORE in each paper (irrespective of the raw scores) will be the 100 Percentile, indicating that 100% of candidates have scores equal to or lesser than the highest scorer/ topper for that session.

Highest Raw Score and Percentile Score: All the highest raw scores will have a normalized Percentile Score of 100 for their respective session.

Session	Total Candidates Appeared	Highest Raw Score	Candidates who scored EQUAL OR LESS THAN the Highest Raw Score	Percentile Score	Remarks
Session-1	28012	335	28012	100.0000000 [(28012/28012) *100]	i.e. all the highest raw scores would be normalized to a 100 Percentile Score for their respective session.
Session -2	32541	346	32541	100.0000000 [(32541/32541) *100]	
Session -3	41326	331	41326	100.0000000 [(41326/41326) *100]	
Session -4	40603	332	40603	100.0000000 [(40603/40603) *100]	

Lowest Raw Score and Percentile Score: Percentile Score of all the lowest raw scores will depend on the total number of candidates who have taken the Examination for their respective session

Session	Total Candidates Appeared	Lowest Raw Score	Candidates who scored EQUAL OR LESS THAN the Lowest Raw Score	Percentile Score	Remarks
Session -1	28012	-39	1	0.0035699 [(1/28012) *100]	i.e. , Percentile Score of all the lowest raw scores are different, i.e., Percentile Score depends on the total number of candidates who have taken the Examination for their respective session.
Session -2	32541	-38	1	0.0030730 [(1/32541) *100]	
Session -3	41326	-49	1	0.0024198 [(1/41326) *100]	
Session -4	40603	-44	1	0.0024629 [(1/40603) *100]	

The following is a further explanation of the interpretation of the raw scores and Percentile Score in Session-3 (Day-2 and Shift-1) with 41326 candidates who have taken the examination.

Candidate	Percentile Score	No of Candidates	Raw Score	Remark
A	**100.0000000** [(41326/41326) *100]	**1**	**331**	Indicates that amongst those appeared, 100% have scored either EQUAL TO OR LESS THAN the candidate A **(331 raw score)**.
				It also indicates that no candidate has scored more than the candidate A **(331 raw score)**.
B	**90.1224411** [(37244/41326) *100]	**77**	**121**	Indicates that amongst those appeared, 90.1224411% have scored either EQUAL TO OR LESS THAN the candidate B **(121 raw score)**.
				It also indicates that remaining candidates have scored more than candidate B **(121 raw score)**.
C	**50.4549194** [(20851/41326) *100]	**381**	**41**	Indicates that amongst those appeared, 50.4549194% have scored either EQUAL TO OR LESS THAN the candidate C **(41 raw score)**.
				It also indicates that the remaining candidates who appeared have scored more than candidate C **(41 raw score)**.
D	**31.7040120** [(13102/41326) *100]	**789**	**25**	Indicates that amongst those appeared, 31.7040120% have scored either EQUAL TO OR LESS THAN the candidate D **(25 raw score)**
				It also indicates that remaining candidates have scored more than candidate D **(25 raw score)**.
E	**1.1034216** [(456/41326) *100]	**100**	**-15**	Indicates that amongst those appeared, 1.1034216% have scored either EQUAL TO OR LESS THAN the candidate E **(-15 raw score)**
				It also indicates that remaining candidates have scored more than candidate E (**-15 raw score)**

STEP-BY-STEP PROCEDURE FOR NORMALIZATION AND PREPARATION OF RESULT:

Step-1: Distribution of Examinees in two shifts:

Candidates have to be distributed into two sessions randomly so that each session has approximately on equal number of candidates. These two sessions would be as follows:

Session-1: Day-1 Shift-1, Session**-2:** Day-1 Shift-2

In the event of more number of days or less number of shifts, the candidates will be divided accordingly.

This will ensure that there is no bias in the distribution of candidates who shall take the examination. Furthermore, with a large population of examinees spread across the entire country, the possibility of such bias becomes remote.

Step-2: Preparation of Results for each Session:

The Examination results for **each session** would be prepared in the form of

- Raw Scores
- Percentiles Scores of Total raw scores.

The Percentiles would be calculated for each candidate in the Session as follows:
Let TP1 be the Percentile Scores of the Total Raw Score of that candidate

$$\textbf{Total Percentile (TP1):} = 100 \times \frac{\textbf{No. of candidates appeared from the session with raw score EQUAL TO OR LESS than T1 score}}{\textbf{Total number of candidates appeared in the session}}$$

Step-3: Compilation of NTA score and Preparation of Result:

The Percentile scores for the Total Raw Score for all the sessions **(Session-1:** Day – 1 Shift – 1**, Session-2:** Day – 1 Shift – 2) **as calculated in Step-2 above would be merged and shall be called the NTA scores which will then be used for the compilation of results and further processing for deciding the allocation.**

In the events of the percentiles for the multi-shifts being dissimilar / unequal, the lowest will be the eligibility cut off for that category for all candidate (i.e. all shifts).

For Example: In the Examination held in two shifts, if the 40% marks correspond to a Percentile score of 78 in Shift 1 and 79 in Shift 2, then all those equal to or above 78 percentiles (Percentile score of 100 to 78) in both shifts will become eligible in the General Category. A similar method will be adopted for the other categories to determine eligibility cut-offs. In the event that the Examination is held in more than one shift, the same principle shall apply.

Appendix - VI

Procedure to be adopted for compilation of NTA scores for multi-session Papers

(Normalization procedure based on Percentile and Equi percentile method**)**

Need for Normalization

For several subjects, the CUET (PG) 2026 may be conducted in different shifts. Since the question papers for any subject in different shifts are different and it is quite possible that despite all the best possible efforts of maintaining equivalence among various question papers, the difficulty level of these question papers administered in different sessions may not be the same or similar. There is a need for normalizing the marks across shifts.

A Committee headed by a Senior Professor from the Indian Statistical Institution Delhi and comprising of Senior Professors from the Indian Institute of Technology Delhi and the University of Delhi had detailed deliberations to arrive at the methodology.

As per Information Bulletin of CUET (PG) the raw score of each candidate in each subject will be normalized using the Equi-percentile method. This is done separately for each subject for which the examination is held in multiple shifts.

For each subject for which the examination is held in multiple shifts, the raw score for each candidate appearing for the subject will be converted into NTA Score (Percentile Score & Normalized Score) in the following three steps.

Step 1: Convert Raw Scores into Percentile Scores.

The percentiles are calculated separately for each shift.
Record the number of candidates who have appeared in a shift. Denote this number by N.
Sort all the candidates in one shift in decreasing order of their marks.
Note the *raw marks* for each candidate. Suppose this is denoted by T. Count the number of candidates in that shift whose raw scores are less than *or equal to* T. Denote this number by m.
The percentile score for this candidate is then calculated as:

$$P = \frac{m}{N} \times 100$$

Illustration:

Suppose that the examination in a certain subject is held in two different shifts, S1 and S2, say. Consider six candidates A, B, C, D, E, and F out of which A, B, and C are from shift S1 and the other three are from shift S2.
Let the raw marks of the six candidates be xA, xB, xC (shift S1 marks) and yD, , yF (shift S2 marks).
For candidates *A, B, and C*, the percentiles are calculated using the total marks obtained by candidates appearing in shift $S1$ (in the same subject) as explained above.

Similarly, for candidates *D, E, and F*, the percentiles are calculated using the total marks obtained by candidates appearing in shift *S*2 (in the same subject) as explained above.
Let the respective percentiles be denoted by $P_A, P_B, P_C, P_D, P_E,$ and P_F.
The above data is summarized in the following table. The terms in red colour indicate that these are the output of this step.

Shift S1			Shift S2		
Candidate	Raw score	Percentile	Candidate	Raw score	Percentile
A	X_A	P_A	D	Y_D	P_D
B	X_B	P_B	E	Y_E	P_E
C	X_C	P_C	F	Y_F	P_F

Since the calculation for percentiles in any shift depends only on the data from that shift alone, there is a separate table for each shift.

Step 2: Pull the percentiles to the marks scale for each session to get a Normalized Score.
The data across all sessions tabulated at the end of *step 1* is collated into a single table.
The columns for the shift-wise raw score should be kept separate.
All the records are then sorted in decreasing order of the percentiles.

Illustration (Continued):

In the illustrative example given above, suppose that the percentiles of the six candidates satisfy.

$$P_E > P_A > P_C = P_F > P_B > P_D$$

Then the collated table would look as given below:

Candidate	Percentile	Rawscore *S*1	RawScore *S*2
E	PE	–	Y_D
A	PA	X_A	–
C&F	PC=PF	X_B	Y_E
B	PB	X_C	–
D	PD	–	Y_F

Candidate *C* from shift *S1* and candidate *F* from shift *S*2 have the same percentile. The relevant entries under "*Raw Score S1*" and "*Raw Score S2*" are the actual raw scores x_C and y_F respectively. This has the obvious interpretation that marks x_C of shift *S1* are equivalent to marks y_F of shift *S2*.
Candidates *A* and *B*, appearing in shift *S1*, have a blank entry in column "*Raw Score S2*", as there is no corresponding candidate having exactly the same percentile from shift *S2*. Similarly, Candidates D and E, appearing in shift *S*2, have a blank entry in column "*Raw Score S1*", as there is no corresponding candidate having exactly the same percentile from shift *S1*.

- In the remaining part of this *Step 2*, the blank entries in the two "*Raw Score*" columns are filled up using linear interpolation.

- Consider a record (row) whose entry in the column "*Raw Score S1*" is blank. The blank will be replaced by the interpolated score X which is calculated as:

$$X = x_1 + \frac{x_2 - x_1}{p_2 - p_1}(P - p_1)$$

Where:

P is the corresponding entry in the "*Percentile*" column

$x1$ is the first *non-blank* entry BELOW X. i.e., $x1 < X$ and there is no other non-blank entry in the column between $x1$ and X.

$x2$ is the first *non-blank* entry *ABOVE X. i.e.*, $x2 > X$ and there is no other non-blank entry in the column between $x2$ and X.

$p1$ is the entry in the "*Percentile*" column corresponding to $x1$ from the column "*Raw Score S1*".

$p2$ is the entry in the "*Percentile*" column corresponding to $x2$ from the column "*Raw Score S1*".

Note that there may be several blank entries between $x1$ and $x2$.

All the blank entries in column "*Raw Score S1*" can now be replaced by the interpolated values. The blank entries in column "*Raw Score S2*" are also replaced using a similar procedure.

Illustration (Continued):

The table in the illustrative example would look like the following, where the entries in red indicate the additional output at the end of this step

Candidate	Percentile	Raw Score *S*1	Raw Score *S*2
E	PE	XE	yE
A	PA	X_A	YA
C&F	$PC=PF$	X_C	yF
B	PB	X_B	YB
D	PD	XD	yD

Step3: Calculation of the Normalized Score

Now for each subject, there is a score assigned to each percentile value for each session. The **Normalized score, Z,** corresponding to a percentile value P, is calculated as:

$$Z = \text{Average of } (u_A, u_B, u_C, \ldots\ldots\ldots u_t) = \frac{u_A + u_B + u_C + \ldots\ldots + u_t}{t}$$

Where $u_A, u_B, \ldots\ldots u_t$ denote the raw scores corresponding to the percentile P in each of the different sessions

Illustration (Continued):

The **final** table in the *illustrative example* would be as follows:

Candidate	Percentile	Raw Score $S1$	Raw Score $S2$	Normalized Score
E	PE	XE	y_E	$(XE + y_E)/2$
A	PA	X_A	YA	$(x_A + YA)/2$
C&F	$PC=PF$	X_C	y_F	$(x_C + y_F)/2$
B	PB	X_B	YB	$(x_B + YB)/2$
D	PD	XD	y_D	$(XD + y_D)/2$

Step-by-Step Procedure for Converting from Raw Score to Normalized Score: -

Example: Suppose a test was held in 4 phases of examinees as per details given below:

(Allocation of Days and shifts were done randomly)

Session	Day	Shift	No of Candidates			Raw Score	
			Absent	Appeared	Total	Highest	Lowest
Session-1	Day-1	Shift-1	3974	28012	31986	200	-40

Session-4	40603	200	40603	100.0000000 [(40603/40603) *100]	

Lowest Score and Percentile Score: -

Session	Total Candidates Appeared	Lowest Raw Score	Candidates Who Scored Equal or Less Than Highest Raw Score	Percentile Score	Remarks
Session-1	28012	-40	1	0.0035699 [(1/28012) *100]	i.e., the Percentile Score of all the lowest raw scores are different i.e., Percentile Score depends on the total number of candidates who have taken the examination for their respective session.
Session-2	32541	-36	1	0.0030730 [(1/32541) *100]	
Session-3	41326	-36	1	0.0024198 [(1/41326) *100]	
Session-4	40603	-40	1	0.0024629 [(1/40603) *100]	

Step1: Convert Raw Score into Percentile Score

The percentile score for this candidate is then calculated as:

$$Percentile\ Score = 100 \times \frac{No.\ of\ Candidates\ appeared\ from\ the\ session\ with\ raw\ score\ EQUAL\ TO\ OR\ LESS\ than\ T\ Score}{\text{Total No. of Candidates who appeared in the session}}$$

Step 3: Calculation of Normalized Score: Now for each subjects, there is a score assigned to each percentile value for each session. The Normalized score, Z, corresponding to a percentile value P, is calculated as Z= Average of (uA, uC,……..ut)= $uA + uB + uC$ +,…..+ ut/ t

Where uA, uC,……..ut denote the raw scores corresponding to the percentile P in each of the different sessions

The above method is based on the work: "Normalization of marks in multi-session examinations", Abhay G. Bhatt et al, CURRENT SCIENCE, Vol. 118, No. 1, 10 January 2020

Note: *The NTA is planning to conduct the CUET (PG) 2026 examination in a single shift for each language/subject/General Test, so that the need for Normalization will not exist. However, under unavoidable circumstances, if any subject is conducted in multi-shifts, then normalization will be done. The performance of every candidate will be evaluated using the equi-percentile method wherein normalized marks of each candidate will be calculated using the percentiles of each group of students in a given shift across multiple days for the same subject.*

THE SCHEDULE

[*See* clause (*zc*) of section 2]

SPECIFIED DISABILITY

1. Physical disability.—

A. Locomotor disability (a person's inability to execute distinctive activities associated with movement of self and objects resulting from affliction of musculoskeletal or nervous system or both), including—

(*a*) "leprosy cured person" means a person who has been cured of leprosy but is suffering from—

(*i*) loss of sensation in hands or feet as well as loss of sensation and paresis in the eye and eye-lid but with no manifest deformity;

(*ii*) manifest deformity and paresis but having sufficient mobility in their hands and feet to enable them to engage in normal economic activity;

(*iii*) extreme physical deformity as well as advanced age which prevents him/her from undertaking any gainful occupation, and the expression "leprosy cured" shall construed accordingly;

(*b*) "cerebral palsy" means a Group of non-progressive neurological condition affecting body movements and muscle coordination, caused by damage to one or more specific areas of the brain, usually occurring before, during or shortly after birth;

(*c*) "dwarfism" means a medical or genetic condition resulting in an adult height of 4 feet 10 inches (147 centimeters) or less;

(*d*) "muscular dystrophy" means a group of hereditary genetic muscle disease that weakens the muscles that move the human body and persons with multiple dystrophy have incorrect and missing information in their genes, which prevents them from making the proteins they need for healthy muscles. It is characterised by progressive skeletal muscle weakness, defects in muscle proteins, and the death of muscle cells and tissue;

(*e*) "acid attack victims" means a person disfigured due to violent assaults by throwing of acid or similar corrosive substance.

B. Visual impairment—

(*a*) "blindness" means a condition where a person has any of the following conditions, after best correction—

(*i*) total absence of sight; or

(*ii*) visual acuity less than 3/60 or less than 10/200 (Snellen) in the better eye with best possible correction; or

(*iii*) limitation of the field of vision subtending an angle of less than 10 degree.

(*b*) "low-vision" means a condition where a person has any of the following conditons, namely:—

(*i*) visual acuity not exceeding 6/18 or less than 20/60 upto 3/60 or upto 10/200 (Snellen) in the better eye with best possible corrections; or

(*ii*) limitation of the field of vision subtending an angle of less than 40 degree up to 10 degree.

C. Hearing impairment—

(*a*) "deaf" means persons having 70 DB hearing loss in speech frequencies in both ears;

(*b*) "hard of hearing" means person having 60 DB to 70 DB hearing loss in speech frequencies in both ears;

D. "speech and language disability" means a permanent disability arising out of conditions such as laryngectomy or aphasia affecting one or more components of speech and language due to organic or neurological causes.

2. Intellectual disability, a condition characterised by significant limitation both in intellectual functioning (rasoning, learning, problem solving) and in adaptive behaviour which covers a range of every day, social and practical skills, including—

(*a*) "specific learning disabilities" means a heterogeneous group of conditions wherein there is a deficit in processing language, spoken or written, that may manifest itself as a difficulty to comprehend, speak, read, write, spell, or to do mathematical calculations and includes such conditions as perceptual disabilities, dyslexia, dysgraphia, dyscalculia, dyspraxia and developmental aphasia;

(*b*) "autism spectrum disorder" means a neuro-developmental condition typically appearing in the first three years of life that significantly affects a person's ability to communicate, understand relationships and relate to others, and is frequently associated with unusal or stereotypical rituals or behaviours.

3. Mental behaviour,—

"mental illness" means a substantial disorder of thinking, mood, perception, orientation or memory that grossly impairs judgment, behaviour, capacity to recognise reality or ability to meet the ordinary demands of life, but does not include retardation which is a conditon of arrested or incomplete development of mind of a person, specially characterised by subnormality of intelligence.

4. Disability caused due to—

(*a*) chronic neurological conditions, such as—

(*i*) "multiple sclerosis" means an inflammatory, nervous system disease in which the myelin sheaths around the axons of nerve cells of the brain and spinal cord are damaged, leading to demyelination and affecting the ability of nerve cells in the brain and spinal cord to communicate with each other;

(*ii*) "parkinson's disease" means a progressive disease of the nervous system marked by tremor, muscular rigidity, and slow, imprecise movement, chiefly affecting middle-aged and elderly people associated with degeneration of the basal ganglia of the brain and a deficiency of the neurotransmitter dopamine.

(*b*) Blood disorder—

(*i*) "haemophilia" means an inheritable disease, usually affecting only male but transmitted by women to their male children, characterised by loss or impairment of the normal clotting ability of blood so that a minor would may result in fatal bleeding;

(*ii*) "thalassemia" means a group of inherited disorders characterised by reduced or absent amounts of haemoglobin.

(*iii*) "sickle cell disease" means a hemolytic disorder characterised by chronic anemia, painful events, and various complications due to associated

tissue and organ damage; "hemolytic" refers to the destruction of the cell membrane of red blood cells resulting in the release of hemoglobin.

5. Multiple Disabilities (more than one of the above specified disabilities) including deaf blindness which means a condition in which a person may have combination of hearing and visual impairments causing severe communication, developmental, and educational problems.

6. Any other category as may be notified by the Central Government.
